## About

BASE è concepito per essere un vero e proprio punto di riferimento, un emblema di sicurezza laddove ci sia l'esigenza di avere un'illuminazione affidabile e sapiente. Come nel baseball, la base è il punto focale del gioco, così anche BASE è l'elemento che si installa nel terreno e aiuta a valorizzare con la sua luce la scena in cui viene inserito.

#### Translations

EN BASE is designed to be a real landmark, an emblem of safety where reliable and professional lighting is needed. As in baseball, the base is the focal point of the game, so BASE too is the element that if installed in the ground helps, with its light, to enhance the scene in which it is inserted.

FR BASE est conçu comme un véritable point de référence, un emblème de sécurité là où un éclairage fiable et habile est requis. Comme dans le baseball, la base est le point central du jeu. BASE est donc l'élément qui est installé dans le sol et qui contribue à travers sa lumière à valoriser le site où il est inséré.

DE BASE ist als echter Bezugspunkt ausgelegt, ein Symbol für Sicherheit, wo zuverlässige und fachmännische Beleuchtung benötigt wird. Wie beim Baseball wo die Base der Mittelpunkt des Spiels ist, so ist auch BASE das Element, das in den Boden eingebaut wird und hilft, die Szene, in die es eingefügt wird, mit seinem Licht zu verstärken.
